Allowable Subject Matter

Claims 1-8 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a method of cleaning the fluted filter media having the step of the pressurized fluid turning at an angle of less than 80 degrees to flow into the downstream flow face of filter.

Claims 9 and 11-14 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses the structure of a filter element having the first media constructed of a non-rectangular parallelogram, and the second media also constructed of a non-rectangular parallelogram, wherein the first media and the second media are angled relative to each other to form a V-configuration having an apex.

Claims 15-19 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a gas turbine air intake system with a cleaning system oriented to send a flow of pressurized fluid into the fluted filter media through the downstream flow face and out of the first media through the upstream flow face.

Claim 20 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a method of servicing a gas turbine air intake system with a filter element forming a V-configuration with a non-rectangular parallelogram shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
